

Convert Your Dream into Reality with Permanent Make Up

Posted by [irina chen](#) / 11 - Oct - 2017

Permanent makeup can visually diminish natural flaws such as asymmetrical features and discoloration but this has to be performed by very well-trained professional. Eyeliner or Lip color looks more natural if they are done with permanent than regular makeup, this is also ideal for people with active lifestyle, athletes and those who have personal limitation such as bad vision. It is also a best solution for the people who suffer from Alzheimers or Parkinson disease. This procedure is very helpful and it is a great solution for everyday busy women and frequent travelers, it is also a great feeling of not worrying about makeup will run or stain the outfit.

If you are looking for perfect lips 24/7 then there could not be any better option than lips permanent makeup treatment, it allows to enhance the beauty of natural lips and correct the asymmetry also add definition and fullness to your lips. With help of this treatment it is possible to de-emphasize age lines around lips and correct fading color of the lips that is always associated with aging. The desired effect can be achieved for your lips as color is customized for every client as per their complexion.

You can save everyday makeup time by using permanent eyeliner makeup treatment. It is highly recommended for women who wear pencil or liquid eyeliner daily and would like to save time on applying it. It will never run and always have a beautiful shape that is professionally drawn, this is one of the greatest advantages it has, also this can be applied on either lower or upper line or both. No need to use liquid eyeliners, no running of the color, customized shape and color, can be applied to both lines.

One can also get permanent lash effect done with these treatment, this is ideal for people who would like to enhance their lash line and create an appearance of fuller lashes. This is ideal for people with light, sparse natural lashes as it allows to achieve fuller looking eyelashes. This is a onetime solution for the women who uses eyelash extensions and do not wish to get frequent refills. You will get fuller lashes effect, less refills, natural looking customized color.

This is also recommended for the people who had permanent makeup done before but would like to correct the shape and color or overall improve appearance of their lips eyebrows or eyeliner. Depend on the condition we use both color adjustment and shape correction methods during the correction of old makeup. We use different type of technique depending on the clients need, basic idea is to get the desired look and perfection for your long-lasting beauty. This treatment is about implementing a corrective pigment color to the faded area to neutralize it to be more natural shade.
