

50 MM F-Mount lens & Line Scan Camera for Colour Sorter Machine

Posted by [Balaji MicroTechnologies](#) / 18 - May - 2017

Balaji MicroTechnologies (BMT) is India's No. 1 Manufacturer & supplier of high speed RGB CCD Line Scan Camera, C-mount Machine Vision lens & F-Mount Machine Vision lenses which are good for use in Bi-Chromatic & Tri Chromatic Colour Sorter Machine. The company design & manufacture complete electronics for Color Sorter Machine.

With strong in-house R&D & design efforts, our 35 MM F Mount lenses are developed with optimal precision techniques & comes with very less camera price, low distortion & produce high quality images. Our 50 MM F Mount lens are actively implemented in variety of applications like in Machine Vision, color sorter, ITS/Surveillance & Medical Imaging Applications & many others etc.

Our line scan cameras & camera lenses are very well tested & integrated in large number of camera based color sorter machines, ideal choice for:

1. Monochromatic colour sorter machines for object like rice etc.
2. Bi-chromatic & Trichromatic application for Multi-grain color sorter applications.
